ABG Motors – India Market Entry Analysis

Evaluating demand, competition, and feasibility for a 10,000 units/year target

Market Share Needed for 10K Sales

0.06%
Required Share

Car Ownership (India)
6430
Sum of cars_per_1000_people

India Market Size (2024)
17M
Sum of units sold

Strong post-2020 growth indicates rising demand.

India shows strong growth in automobile demand, while Japan remains relatively stagnant, indicating a mature and saturated market.

Car Ownership per 1000 People (India vs Japan)

India has significantly lower car ownership (~30 per 1000 people) Japan (~600+), indicating a large untapped market and strong long-term growth potential.

India Market by Segment (2024)

Compact SUVs dominate the Indian automobile market, making them the most attractive entry segment for ABG Motors. Hatchbacks remain significant but are price-sensitive, while SUVs offer higher growth and profitability potential.
